Research & Analytics

Aggregated time-series analysis across all championship matches

Analysis Parameters

Configure filters for the aggregated analysis

Minimum Minutes Played: 85

Only include players who played at least this many minutes

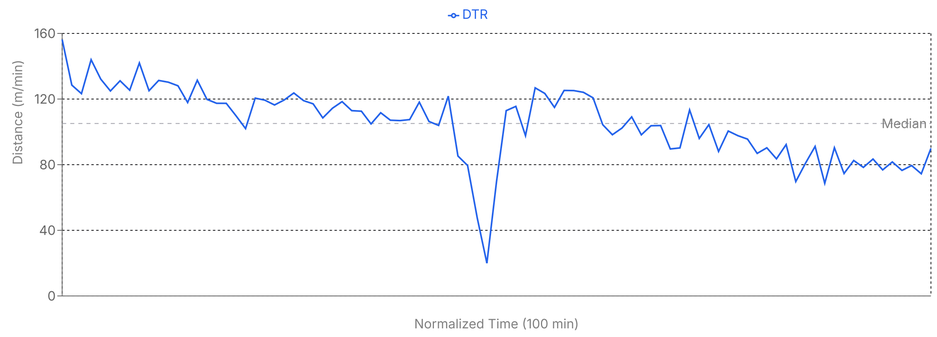

Available Matches: 18

Total Player-Matches: 174

Total Distance Traveled per Minute (DTR)

Average distance covered per minute across all matches (normalized to 100 minutes). Players with ≥ 85 minutes played.

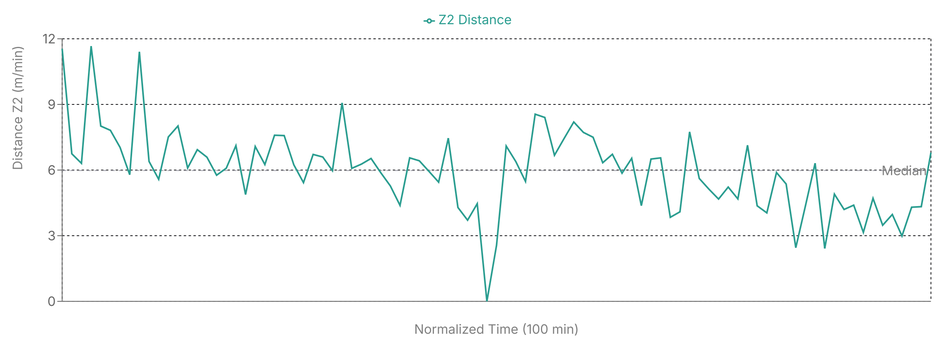

Median: 105.1 m/min Data points: 91

Distance in Z2 per Minute (19.8 - 25.2 km/h)

Average distance covered in high-speed running zone per minute. Matches normalized to 100 minutes.

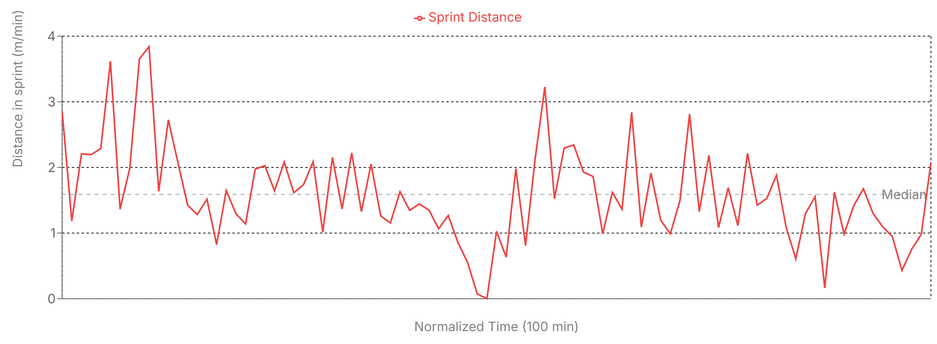

Zone: 19.8-25.2 km/h Median: 6.0 m/min Data points: 91

Sprint Distance per Minute (>25.2 km/h)

Average distance covered in sprint zone per minute. Matches normalized to 100 minutes.

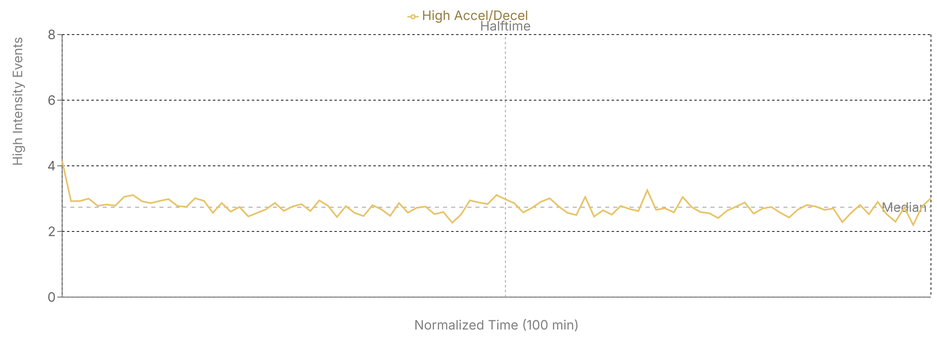

Zone: >25.2 km/h Median: 1.59 m/min

High Accelerations & Decelerations (>2.5 m/s²)

Count of high-intensity acceleration/deceleration events per minute.

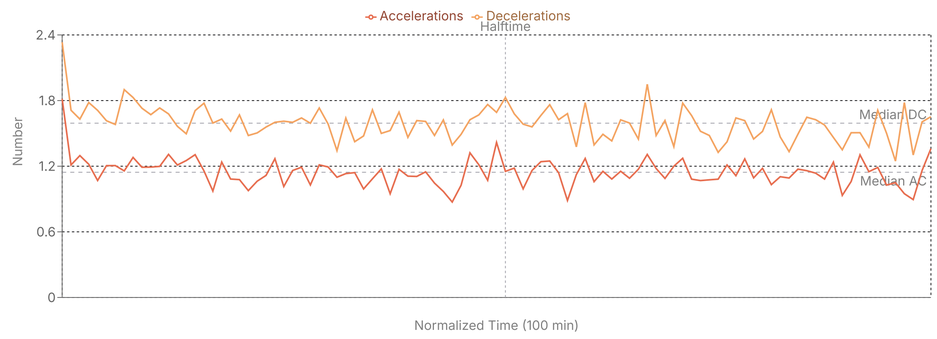

Threshold: > 2.5 m/s² Median: 2.74 /min

Average Accelerations and Decelerations

Separate trends for acceleration and deceleration magnitudes per minute.

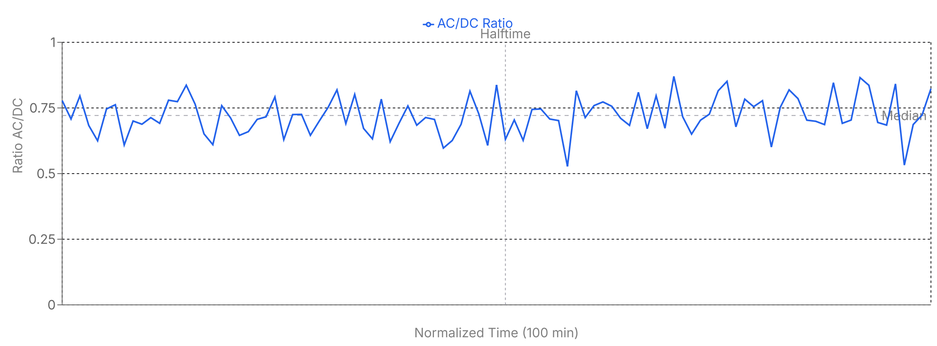

Median AC: 1.14 Median DC: 1.59

Acceleration/Deceleration Ratio (AC/DC)

Ratio between acceleration and deceleration counts per minute.

Median: 0.72
